

## About

Kid Sense Child Development provides Occupational Therapy and Speech Therapy services to children with developmental challenges in their movement, play, speech, language, learning, attention and behaviour. We are the longest continually owned private provider of paediatric Occupational Therapy in Adelaide, South Australia.

Founded by Joanna Buttfeld in 1998, Kid Sense operates from a purpose-built [Centre](#) at 90 Unley Road, Unley, South Australia, just 5 minutes South of Adelaide's CBD. Our excellent onsite facilities ensure your child is seen in the best environment possible, with all of the equipment, resources and staff needed to provide the best treatment for your child.

Working closely with parents, carers, teachers and other medical & health professionals, our paediatric team helps children overcome physical developmental challenges and language and learning frustrations that can otherwise prevent them from functioning optimally, independently and confidently in a peer setting.

Our aim is to create the most trusted brand in child development in South Australia. We do this by successfully, and consistently delivering the highest quality paediatric services. We ensure the daily lives of parents, siblings and the wider family, carers, teachers, school mates and friends are all impacted positively by the improvements made in the behaviours and abilities of a single

child.
