**School readiness concerns?
Underdeveloped physical
skills?**

**Immature talking
or understanding?**

**Awkward pencil
or scissor skills?**

Problem behaviour?

We can help!

If you've noticed other kids mastering skills your child hasn't yet, then they might benefit from a consultation with a therapist who specialises in enhancing child development.

- Immature play or social skills?
- Clumsy or awkward?
- Can't jump with feet together?
- Falls frequently?
- Non-compliance?
- Slow learning progress?

Speech Pathology

- Not putting 4+ words together?
- Hard for others to understand?
- Stuttering?
- Doesn't understand or follow instructions?
- Not putting words in the correct order?
- Hard to find the right words to describe things?
- Difficulty reasoning?
- Struggles to problem solve in play and academics?
- Difficulties turn taking and sharing?
- Immature social skills
- Inappropriate social responses?
- Not initiating play with peers?

Other Services

- Free on-line self-assessments available at www.childdevelopment.com.au
- Extensive educational website and eNewsletters
- Professional Development Workshops (at Kid Sense & your facility)

Let us help

Kid Sense Child Development helps children overcome developmental challenges in movement, play, speech, language, learning and behaviour.

We do this by examining your child's current abilities and enhancing the building block skills required for the development of age appropriate milestones.

While 'therapy' is clinic based, the focus is on establishing fun activities for use at home and Kindy to help develop your child's skills.

If you have any concerns regarding your child's development, please call Kid Sense for an obligation-free discussion with one of our Clinical Directors. Alternatively, visit our website childdevelopment.com.au and complete a free, on-line self assessment.
