Boosting Children's Learning | Professional Development Workshop

Workshops are presented by experienced paediatric clinicians who will provide practical, fun and innovative ways to help your child overcome their little challenges

Getting up to speed - Improving Reading Fluency: Explore Phonological (Sound) Awareness; Decoding (understanding and using spelling rules); Reading Fluency (smooth reading) and Reading Comprehension (understanding) to help further develop a child's ability to read.

Turning "Me can't know that" into "I get it!" –v Helping Children with Language Delay: Discover interesting resources and ideas about how to help develop a child's understanding and use of language so that they can become better communicators.

Making Sense of Sensory Integration: Learn about the impact of not just the 5 senses but 7 on how we attend, learn, behave, perform physical tasks as well as social development.

School Readiness: Help your child develop school readiness in academics, social (play), organization and physical skills.

Getting Control of your Engine: A follow on to Making Sense of Sensory Integration that provides strategies to help manage sensory issues at home, in the child care, kindy and school classroom.
**Note: Knowledge from the 'Making Sense of Sensory Integration' workshop is assumed.*

Sharpening up on Pencil Skills: Learn how to help a child develop the foundation skills and strategies to overcome difficulties with pencils, scissors, buttons, cutlery and other utensils.

Developing Confidence in Coordination: Help your children gain confidence to participate in physical activities by developing the whole body foundation skills.

Play - Your inner child: Learn how to foster positive play experiences to enhance social, emotional, language, physical and cognitive development.
